

WinPak™ Barcode Labeling Software

Medical Packaging Inc.'s Barcode Labeling Software is a customizable labeling program for the Auto-Print Bagging System and Pharmacy Accessory Label Printer "Flag Label System". Designed for the pharmacy, the software will record Hospital and Manufacturers lot numbers and offer the security and password protection expected for labeling pharmacy medication. Pre-installed with default label templates, WinPak™ Barcode Labeling Software is a fully customizable labeling solution for all size bags and labels used with the MPI product line.

Label Customization

- Pre-installed templates for all label sizes.
- Label templates are fully customizable.
- Adjustable font sizing.
- Label can be viewed on screen before printing.
- Label/Barcode creation for "Robot Ready" bags.

Bar Coding

- Supports all popular healthcare bar code symbologies.

Security

- System password option allows control of data files and labeling operation.

Reporting

- **Report Generator** allows reports-based specific fields.
- **"Daily Log"** shows all packaging performed based on a specific time frame in both basic and detailed format.
- Print to Screen or Printer.

Compliance/Error Prevention

- Barcode/Scan Check – Scanning bulk bottle verifies proper drug.

Technical Specifications

- Network compatible database or stand-alone operation.
- Back-up data files to hard disk or remote network drive.
- Runs on Windows® operating system.
- "Help File" troubleshoots common technical and mechanical issues.
