## **MEDICAL PACKAGING INC. ANNOUNCES CLEAR STEM FLAG LABEL SYSTEM FOR AMPOULES, VIALS AND SYRINGES**

**Ringoes, NJ – February 1, 2006** – Medical Packaging Inc. has introduced a 'Clear Stem' Flag Label system for barcoding ampoules, vials and syringes. Utilizing MPI's Thermal Transfer Label Printer (TTLP) and WinPak™ Barcode Labeling Software, this convenient 'Clear Stem' Flag Label solves the Pharmacy's labeling needs for items requiring a bar code and label while meeting the specific needs of those who require the ability to view package content through the clear stem portion of the label.

MPI's 'Clear Stem' Flag Label solution provides a double-sided print area that allows both a bar code and 6-lines of text on an individual white flag label. The label is easily removed from its backing and applied to the product in one swift motion and has a combined print area of 1 ½ " x 1" utilizing both sides of the label.

### **About Medical Packaging Inc.**

Medical Packaging Inc. (MPI) is a manufacturer of packaging systems for unit dosing and label medication. Founded in 1971, MPI was the first company in the United States to design and market a bench scale strip packager for hospitals. Today, MPI is an international leader of pharmacy packaging solutions for oral solids, liquids and ampoules, vials and syringes for hospitals, long term care and the assisted living markets. MPI is a privately held company with sales offices throughout the U.S. and distribution partners worldwide. Further information is available at [www.medpak.com](http://www.medpak.com).
