MEDICAL PACKAGING INC. ANNOUNCES NEW STAINLESS STEEL AUTO-PRINT™ II

Ringoes, NJ – February 1, 2006 – Medical Packaging Inc. has introduced a stainless steel version of the Auto-Print™ II oral solid packaging system which features custom fabricated stainless steel housing that is resistant to stains and rust, providing for a durable commercial clean room look.

All of the standard Auto-Print™ II features and WinPakUD™ software capabilities are included in the stainless steel version which provides the ability to package bulk medication into unit dose at the rate of 60 packages per minute. Additional efficiency can be obtained through the addition of the Multi-Drug Dispenser (MDD).

This high-performance, durable system, now available in stainless steel, the standard contact used in the pharmaceutical industry, was designed for simple maintenance and easy operation, and will help to decrease packaging costs, increase operational efficiency and reduce medication errors.

About Medical Packaging Inc.

Medical Packaging Inc. (MPI) is a manufacturer of packaging systems for unit dosing and label medication. Founded in 1971, MPI was the first company in the United States to design and market a bench scale strip packager for hospitals. Today, MPI is an international leader of pharmacy packaging solutions for oral solids, liquids and ampoules, vials and syringes for hospitals, long term care and the assisted living markets. MPI is a privately held company with sales offices throughout the U.S. and distribution partners worldwide. Further information is available at www.medpak.com.
