MEDICAL PACKAGING INC. ENTERS INTO EQUIPMENT PURCHASE AGREEMENT WITH PROVIDENCE HEALTH & SERVICES (WA)

Ringoes, NJ – February 1, 2007 – Medical Packaging Inc. (MPI), a leading manufacturer of pharmacy packaging solutions, has entered into an exclusive Equipment Purchase Agreement with Providence Health and Services based in Seattle, Washington. This agreement allows MPI to offer its' full product line to over twenty-four (24) acute care facilities within the Providence Health and Services health system.

MPI's customer base currently includes three (3) members of Providence Health and Services, located in Alaska, Oregon and Montana, and through this agreement, MPI will continue to expand its' customer base throughout the Pacific Northwest over the contract term of the next three (3) years. MPI, through its' worldwide network of distribution partners, is able to provide not only the packaging systems, but a local geographic presence for installation, training and service-related activities.

Andrew Bartels, President/CEO of MPI stated, "MPI is pleased to partner with Providence Health & Services and to offer them customized terms and pricing based upon their overall commitment to implementing MPI's packaging systems throughout their acute care facilities."

About Providence Health & Services

Providence Health & Services was created as a new integrated system with the uniting of Providence Health System and Providence Services, effective January 1, 2006. The health care, senior and community services, housing and education facilities of the two Sisters of Providence-sponsored ministries now function together under shared leadership serving Washington, Montana, Oregon, California and Alaska and includes 28 hospitals, more than 35 non-acute facilities, physician clinics, a health plan, a liberal arts university, a high school, approximately 47,000 employees and numerous other health, housing and educational services.

About Medical Packaging Inc.

Medical Packaging Inc. (MPI) is a manufacturer of packaging systems for unit dosing and label medications.
