

MPI Auto-Print® – Disposable Materials Required for Packaging System Operation

MPI's Auto-Print® requires both Auto-Print SUPERTHERM® and either Auto-Print SUPERCEL® or Auto-Print SUPERFOIL® to package oral solid medication into unit dose packages.

Several different colors of Auto-Print SUPERCEL® are available to identify controlled medications or to color code expiration dates for easier identification.

Approximate package sizes shown.

Please see reverse side for a list of the MPI disposable materials available for use with this packaging system.
